About us

We are Pax Dental. Our Lexington Park dentist office was built in 2020 for people of all ages.

We celebrate the joy of a happy, healthy smile with state-of-the-art technology. Combing cutting-edge dentistry with a team who treats you like family, a relaxing environment, and personalized treatments.

Dr. Neal, Dr. Hawkins, and Dr. Mullinix are Maryland's premier dentist. Our team maintains an unwavering commitment to providing an unparalleled patient experience through comprehensive, expert dental care, and outstanding customer service.

Join the Pax team because you belong here!

Our Benefits

GREAT Culture
We want you to love your job. You'll be happy, healthy and productive in an environment that supports and recognizes you.

Work-Life Balance
Life is too short, enjoy it! Schedules and paid time off (PTO) ensure you'll have plenty of time for all the things you love.

Mentorship
We have team members that would love to walk beside you and help you thrive in your career as a dental assistant.

Admin Support
Leave the day to day administrative tasks to our team of experts while you do what you trained to do - provide amazing patient care.

Growth & Advancement
We believe in advancing your career with leadership opportunities and performance bonus opportunities.

Competitive Pay & Benefits
Enjoy a long list of great benefits, including medical and dental coverage, holiday pay, bereavement leave, and retirement match.

Our Purpose
The Pax team revolutionizes the dental experience by providing each patient with an authentic personal connection, cutting-edge technology and honest dental care.

Our Dental Assistants
While every member of our staff works hard to help you preserve your oral health, our dental assistants are key players in the routine dental care and the specialized treatments we provide. They make contact with every patient who walks through our doors, are responsible for making sure you feel comfortable and safe while you are in the dentist's seat, and before you walk out our door, they will make sure you are well informed and educated. The quality of our practice's care wouldn't be the same without them!
